

Quick Control

Type 5857 Electric Actuator with digital positioner

- Comes with simple initialization for quick start-up

Scope of functions

Type 5857 Electric Actuator with digital positioner

- For quick start-up:
Simple initialization
- For the right speed:
Adjustable actuating time (10 s, 20 s, 30 s)
- For the right input signal:
Adjustable voltage range
- For quick status indication:
LEDs to signal operating states and faults
- For valve position indication:
Determination of current travel from transit time
- For uninterrupted operation:
Detection of valve blockages
- For optimized maintenance:
Integrated diagnostics

Optionally equipped

- For convenient operation:
TROVIS-VIEW software for configuration and operation
- For easy data exchange:
Memory pen to exchange data including logged and diagnostic data
